September 2018

In August, we made a field trip to the de Young Museum, where we admired indigenous artifacts from Africa, Maori works of art, and contemporary textile works as well. We also took a walking tour of the San Francisco Seawall, from Pier 1 to Pier 14, where we learned about the infrastructure of the seawall, as well as future endeavors to improve the wall as the sea levels continue to rise. This month, we'll be visiting the Cal Academy of Science in Golden Gate Park. If you are interested in attending, sign up with a Community Service Worker!
